

PORT NEWS JANUARY 2023

BOAT LAUNCH COMPLEX:

The cost to launch will remain the same for 2023, EXCEPT for kayaks - which has been reduced to \$5.00 per launch per kayak.

Annual Pass \$100 (Launch + Parking + Restroom Access)

Daily Launch \$10

Daily Parking \$5

Commercial Launch \$115

Kayak \$5 per Kayak

To determine annual fees the Port visits all 75 Washington Port websites to determine what they charge. We are in line with all that have boat ramps.

Annual Pass 2023 customers must fill out the annual pass form available on the Port's website:

Direct Link <https://www.portofgrapeview.com/annual-pass-form>

Or go to www.portofgrapeview.com and the drop down box on the Boat and Kayak Launch Tab.

We need all information the form requests before we can send the Hang Tag and Fob.

For anyone renewing their annual pass, use the restroom code on the kiosk purchase receipt until you receive your new pass (hang tag). Your pass will arrive and your fob will be reactivated within 10 days of receiving your web form submission.

Daily Launches have the restroom code on the launch or parking kiosk receipt.

And don't forget to press # after entering the code!! The lock will unlock for 5 seconds! If you miss that timing, enter it again.

2023 BOAT COMPLEX MAINTENANCE

The new facility was installed between 2017 and 2021. It's time to address major maintenance functions as wind, tide and salt water are not friendly to invasion by human structures.

The Port spent many precious dollars in 2022 installing a transition from the end of the ramp into the water.

This year we will address the leaning of the float on the north side due to erosion and scouring of the ramp on the south. Boat Complex use charges are fully dedicated to maintenance.
